

UNIT 6: NUMBERS TO 20

Dear Parents/Guardians,

We learned to count and compare numbers up to 20 in school!

We compared sets of objects to see which had the **greatest** and the **smallest** numbers. We also practiced adding and subtracting numbers up to 20. Try out the activities with your child and bring home the fun!

KEY WORDS

greater
smaller

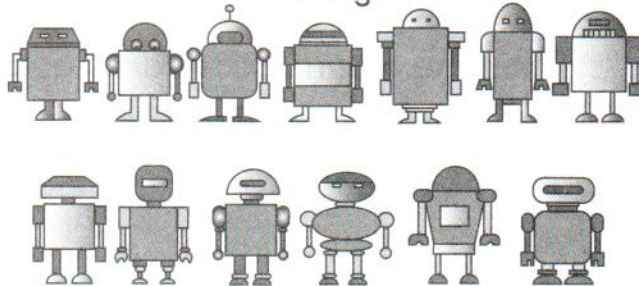

greatest
smallest

9 toys

This set has a
smaller number.

13 toys

This set has a
greater number.

ACTIVITY 1

- Place two pictures side by side, each showing between 11 and 20 items.
- Ask your child which picture shows a smaller number of items, and which shows a greater number.
